Notes:

1. Metals include: iron ore, copper, lead, zinc, gold, silver and molybdenum.
- Other minerals include: phosphate rock, sulfur, boron, diatomite, gypsum and potash.
2. Value of metals for 1982-1987 is negative.
3. GDP deflator for 1987 = 83.06 if 1992=100.
4. Data for 1992-1997 were extrapolated on the basis of 1986-1991 data as a linear trend.
5. Method 1, current rent method 1, utilizes an estimate of a normal, or average, rate of return to investment to estimate the return to the associated capital invested in the mining industry and then derives the resource rent as a residual.

Source: Data on Population are from Economic Report of the President 1998, Statistical Table B-34. http://www.gpo.ucop.edu/catalog/erp98_appen_b.html

Data on School Enrolment, School expenditures & Educational Attainment are Census data: "1996 Statistical Abstract of US", <http://www.census.gov/prod/2/gen/96statab/96statab.html>

Note: 1. Cost of Human Capital were calculated on the basis of 1992 data for average expenditures per student which were calculated on school enrolment and school expenditures.

1992 cost per one student was \$5735.6 in school and \$12621.2 in college

Total cost of human capital were calculated for persons with Less than High School on the basis of 8 years, for persons with High School on the basis of 12 years, and for persons with College on the basis of 12 years in high school + 5 years in college.

2. All data in italic font were interpolated.

Sources: Data on Greenhouse Gas emission in the World for 1973 and 1995 are from International Energy Agency. Data for the years between 1973 and 1995 were interpolated assuming a constant linear growth trend over the period. This trend was extrapolated backwards and forwards outside. Data on GDP for the US and the World are from Monit World Economy, Angus Maddison, 1995, P.181, 211.

Data for 1995-1997 GDP share for the US assumed to be equal to data for 1994.

Recalculation into 1992\$ were made with GDP IPI 1990=93.64 1992=100, Source: Economic Report of the President Statistical Tables B-7 (http://www.gpo.ucop.edu/catalog/erp98_appen_b.html).
